of Riverside (1.79%). Southern California Edison is the Operating Agent of SONGS.

Lease PRC 6785.1 is a 42-year Industrial Lease that was issued to Southern California Edison Company (SCE), San Diego Gas & Electric Company, the City of Anaheim (Anaheim) and the City of Riverside beginning March 1, 1981. The lease authorizes the use and maintenance of cooling water conduits, environmental monitoring buoys and rock riprap and walkway associated with SONGS.

In 2004, it was determined that the steam generators at SONGS required replacement. Pursuant to the SONGS Operating Agreement, a co-owner could elect to opt out of paying its share of the costs associated with resolving operational impairments (such as the replacement of the steam generators), in exchange for a reduction in its ownership share. Anaheim is interested in reducing its ownership interest in SONGS to zero, in order to make room in its generation portfolio for more renewable resources. Therefore, Anaheim is requesting Commission approval to assign its 3.16% undivided interest in the facilities covered by Lease PRC 6785.1 to SCE.

3. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines [Title 14, California Code of Regulations, section 15060(c)(3)], the staff has determined that this activity is not subject to the provisions of the CEQA because it is not a "project" as defined by the CEQA and the State CEQA Guidelines.

Authority: Public Resources Code section 21065 and Title 14, California Code of Regulations, sections 15060 (c)(3) and 15378.
